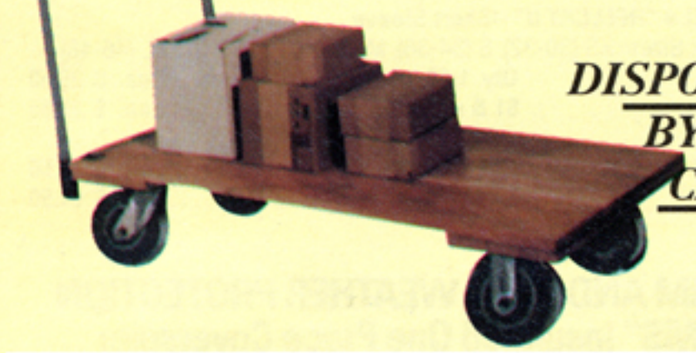
SOME'S IS HIGH ON

STANDARD TYVEK



DISPOSABLES BY THE CASE

SOME'S IS HIGH ON STANDARD TYVEK FOR DIRTY, GREASY, CHEMICAL CONTAMINATED AREAS, FOR CLEAN ROOM PROTECTION!

A non woven fabric. LIMITED USE!. Means that it is Disposable (less expensive than woven fabrics), wear once and throw away or re-use. Tough enough to withstand laundering or dry cleaning.
Tyvek provides protection against hostile liquids and particulates. Tyvek intended use excels where cleanliness is critical, where exposure to chemicals may be damaging, where contamination from harmful particulates or fluids must be kept to lowest level possible, where radioactive, bacteriological or particulate contaminants make garment re-use impractical.

Tyvek is a spunbound polyolefin material, opacified, Anti-Static Quality and has no unusual burning characteristics which conforms to the Flammable Fabrics Act requirements for Class 1 fabrics.

Reduces laundry, inventory and hidden costs. No need to stock a large inventory of sizes and elimates the expense of monthly service contracts, as well as, laundering, repairing, and replacing lost garments.
