About Polar Bottle®

Boulder Daily Camera, March 1996

In 1994, Polar Bottle was founded as a family company in a Boulder, Colorado garage. We had a simple vision: to offer people the delight of a cool, pure, drink of water – anywhere. As the original insulated water bottle, Polar Bottle found an early following among athletes in the biking and outdoor communities.

Twenty years on, our brands are sold through thousands of US retailers and in 42 countries around the world. Polar Bottle can be found wherever athletes, individuals and families need hydration – indoors or out, at work, school or play.

We stand out in a crowded water bottle marketplace for our enduring commitment to innovation and product quality, BPA and phthalate free materials, USA manufacturing, charitable support and environmental stewardship. All of this combines with 70 colorful graphic styles and accessible pricing to give our brands broad appeal.

There is always room to improve the drinking experience: taste, look, pour, insulation. We're a little obsessed with such matters – and that's always refreshing.

Made in the USA

We are proud to create US jobs and investment, by designing and manufacturing our products in beautiful Boulder, Colorado. Our products are designed, assembled and shipped from our 38,000 square foot design and production facility. The bottles are made from parts sourced almost exclusively in the USA.

Our Lifetime Guarantee

We take great pride in the quality of each and every Polar Bottle water bottle. Our products are designed to be used for years. They pass through many rigorous quality control checks before leaving our warehouse. We understand that things happen; bottles break or customers are simply unsatisfied. To ensure unparalleled customer service, we offer retailers and consumers an unconditional lifetime guarantee on all of our products. We also offer a free replacement cap service. Consumers shouldn't have to replace a perfectly good bottle just because they lost or damaged the cap. Whatever happens, just give us a call or drop us an email and we will take care of it. *Guaranteed.*

Official Licensed Product

POLAR BOTTLE®

INSULATED SPORT

Polar Bottle is the original insulated water bottle and remains the standard. It keeps liquids cold twice as long as standard single-wall bottles. Lightweight, flexible and easy to squeeze, it is the perfect hydration solution. The handy carrying strap makes the bottle simple to carry or clip onto a backpack, purse or belt loop. Fill the wide mouth with ice and the drink of your choice, then head outside, to the gym, office or school. For extra cooling power, fill your bottle and freeze before use. No need to worry about chemical gels or mysterious fibers.

- Patented insulated, double wall design
- BPA and phthalate free
- 100% Made in USA
- Dishwasher and freezer safe
- Fits standard bike cages
- 12 oz, 20 oz and 24 oz sizes
- Patented removable drinking valve
- 60+ colors and patterns

Official Licensed Product

Polar Bottle is proud to be an official water bottle licensee of the United States Olympic and Paralympic Teams. For every Team USA Polar Bottle sold, a portion of the proceeds goes directly to support Olympic and Paralympic athletes across the United States as they prepare for the 2016 Summer Games in Rio de Janeiro, Brazil. With our special edition Team USA Polar Bottle, your business can tap into the growing excitement for next year's Olympic Games, and help support Team USA athletes on the Road to Rio.

HALF TWIST TECHNOLOGY

Polar Bottle® announces our latest breakthrough in portable hydration: Half Twist™ technology. Customers told us they wanted a water bottle that would offer the smooth pour of drinking from a cup with the convenience of a bottle and no risk of leaks or spills. Our patented Half Twist is an elegant solution, featuring an innovative drink-through cap with a sealing gasket crafted from medical grade silicone. No need to remove the cap for sipping. To drink: turn left until the “drops” ♪ on cap and bottle line up. To seal watertight: simply turn the cap right until tight. The contoured, mouthpiece is ergonomically designed for optimal sipping comfort and spill-free drinking. Polar Bottle has embraced Half Twist technology in two of our latest lines: Ergo and Thermaluxe. Try Half Twist today and experience your favorite beverage in ultimate style and comfort.

CUSTOM

This is not your typical promotional water bottle

Polar Bottle® is an essential lifestyle accessory. A custom version is ideal for promoting businesses, brands, teams, school groups and events, or as a unique expression of appreciation to clients or employees. This quality product showcases your green credentials (no more disposable water bottles), commitment to healthy lifestyles and the US economy. Any logo or design is protected from wear by the translucent outer bottle, making a custom Polar Bottle a uniquely durable promotional option.

- Unlimited customization options
- Logos sealed in and cannot rub off
- Choice of Sport water bottle or Ergo bottles with Half Twist drink-through cap
- 2 week turnaround
- No reliance on overseas shipping schedules
- Attractive pricing
- In-house design team support
- Pre-production proof available
- 100% Made in the USA

Custom Logo Polar Bottle Water Bottle

CENOTE

STOP CLEANING • START PLAYING

Polar Bottle®, has expanded into the hands-free hydration market with the launch of the Cenote Hydration System. Cenote has been developed as a reasonably priced alternative to costly and hard to clean, traditional hydration systems and is the first fully recyclable hydration bladder.

Cenote features:

- No need to clean - just recycle Cenote and replace with a new pack
- Easy to use and fill
- Accessible price point
- First recyclable hydration bladder on the market
- 2L or 3L options fit in most backpacks
- Suitable for a wide range of drink options
- Replacement hose and valve packs available
- Tubing and reservoir made in the USA
- Cap and bite valve made in China

RESERVOIR

The entire Cenote Hydration System is made of food grade materials and is BPA-free and Phthalate-free. When used as intended, the bag will hold up as long as non-recyclable drinking systems.

BITE VALVE & HOSE

The Cenote Hydration System's polyurethane hosing is BPA-free, antimicrobial and durable enough to hold up to whatever you might throw at it. The equally durable silicone bite valve allows for 360° drinking that yields a steady, high water flow. The valve's optional on/off positions make it extra leak proof and easily removable parts make cleaning a breeze.

CAP AND THREADS

The Cenote Hydration System recyclable cap connector is made of high-density polyethylene and fits all standard wide mouth filters and caps.
